Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-31 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Claims 1, 7 - Heavy weight filler no more than 1.95% volume of the core is new matter. The table (page 7) discloses 1.95% by volume of **zirconium dioxide** present in the core and 0.48% by volume of **tungsten**; the remaining values between zero and 1.95% as claimed is new matter. The PGA compression lower 89.3 and the COR higher than 0.697.

Claim 3 - The PGA compression lower 89.3 and the COR higher than 0.697.

Claim 12 - Heavy weight filler no more than 1.95% volume of the core is new matter. The PGA compression lower than 89.3 and the COR higher than 0.697. The golf ball compression less than 97.3.

Claims 22, 23 – the golf ball compression lower than 97.3.

Claims 24, 25 – a ratio less than 15.285.

Claims 26 and 27 – zinc oxide less than 5 parts

Claim 28 - Heavy weight filler no more than 1.95% volume of the core is new matter. The PGA compression lower 89.3 and the COR higher than 0.697. The golf ball compression less than 97.3.

Claim 29 - Heavy weight filler no more than 1.95% volume of the core is new matter. The PGA compression lower 95.7 and the COR higher than 0.695. The golf ball compression less than 97.3.

Response to Arguments

Applicant's arguments filed 10-28-04 have been fully considered but are not persuasive. The 112, first paragraph new matter rejection is maintained. Contrary to applicant's arguments each element of new matter is specifically shown in the rejection above. As stated in the previous office action, the enablement rejection is not an issue in the instant application. However, the new matter rejection is abundantly clear. Applicant is not permitted to amend the claims to include ranges not supported by the originally filed application. If applicant believes the subject matter listed above is not new matter, applicant is advised to specifically show (page and line number) support in the originally filed specification.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 3711

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
